

.Daffodil Cricket Tours Season 2018

Notes:

Tour 1: Lords. The last time we played at this historic ground in a County Championship game was in May 2011. We have again been fortunate in being able to book the **Danubius Hotel**, which as most of you know is located just across the road from this famous ground. As it is seven years since we played at this venue in a four-day game I anticipate there will be a high demand for hotel accommodation

Tour 2: Leicester, Grace Road. Once more we will be staying at the **Ibis Hotel**, which we have done for many years. All the rooms have now been refurbished. On the tour this time there is every possibility that our coach driver will be staying with us for the duration of the match. As most of you know Sarah Clarke the long-serving Manager and her staff have been most attentive whenever we stay at this Hotel.

Tour 3: Edgbaston. We have not been at this venue for a four-day game since September 2008. We will be staying at the **Hampton by Hilton Hotel**; which is located on Broad Street, Birmingham City Centre. I'm sure the demand for this trip will be high so early booking is required.

Tour 4: Hove. We will be staying at the posh **4-star Hilton Brighton Metropole**, which is on the sea front. We will be staying four nights travelling up on the Sunday morning and returning after breakfast on Thursday. This is an impressive Hotel and Guest have always had good memories having stayed here.

Tour 5: Colwyn Bay. Most people enjoy the high standard we experience at the **4-star St Georges' Hotel**. It has been decided this time to travel up on the first day of the game as we used to and staying for four nights. We will return after breakfast on the Sunday.

Tour 6: Derby, County Ground. It's been decided to stay on this occasion at the **Travel Lodge Hotel** which is located on the Cricket Ground at Derby. Many of you would remember that we stayed here many times when it was called the **Day's Hotel**. It has been completely refurbished since it has changed hands. The price includes a full English Breakfast.

Tour 7: Canterbury, St Lawrence. This ground has been a favourite of ours since we first visited it in the mid-seventies. It is most appropriate that we complete the trips for the summer at this favourite venue of ours. We will be staying at the **Premier Inn, Canterbury City Centre** again particularly as it is so close to the cricket ground as well as to the city centre.

If Glamorgan reach the quarter/semi-finals of any of the one-day competitions and be drawn away it will be our intention as always to have an overnight stay.

We are enclosing two copies of the trip list one for your retention and one for you to return in the addressed envelope listing those trips that you are interested in joining us.
